Spanish (native)

# Agustin Lehmann

Freelance Python and Unity programmer. Currently studying Data Science at the University of Buenos Aires and trying to get a job in the field of Data science.

## Professional Experience

### Freelance

2022 - Present

I'm currently working on a telegram bot that processes trading signals from various groups into its own trading bot, as well as making a subscription system for the service.

### J.P Morgan Code for Good Hackathon

2022

Participated in a group of 7 people to create a full stack solution for an NGO in 24 hours where we have to interview the client (the NGO) for understanding their problem as well as organizing and working as a team to reach the tight deadline.

## Education

### Data Science

2022 - Present

University of Buenos Aires

### Chemist

2008 - 2015

Escuela Técnica N°27 Hipólito Yrigoyen, Buenos Aires, Argentina
